The Scheme of a Local Bank for this Colony with Branches at the most important places in China, has been in contemplation for a very long period. The local and foreign trade in Hongkong and at the open porte in China and Japan has increased so rapidy within the last few years that additional Banking facilities are felt to be required. The Banks now in Ohing being only humalies of Corporations whose head quarters are in England or India, and which were formed chiefly with the view of carrying on exchange operations between those countries and China, are scarcely in position to deal satisfactorily with the local trade which has become so much more extensive and varied than in former years. This deficiency the Hongkong and Shanghai Banking Company will supply, and will in fact assume the same position with relation to this Colony as the Presidency Banks in India, or the Banks of Australia in their respective localities. The Establishment of a Mint in Hongkong,

providing an adequate supply of proper currency, will render a local Banking medium casential to carry out its operations, and the almost certain disappearance of the existing Compredorie system (so far as money is concerned) will also ensure Banks becoming in course of time the exclusive medium for the transaction of the monetary opethere are therefore ample grounds, and the great GENERAL MANAGER, Harry John, Esq., inte Agent Two-story DWELLING HOUSE, on the top of prosperity which has attended the working or at Rombny for Chartered Mercantile Bankot Todia Micror Hill, situated between the property of other local associations in China clearly shews London and China. that the largest profits are oblained by those

negociable in all towns of importance throughout onely in Hongkong and Shanghai and as the in-

y interested in the China Trade. Applications for Shares must be addressed until further notice, to the Provisional Committee, care MESORA DENT & Co.

UNINSULAR & ORIENTAL STEAM NAVIGATION COMPANY. NOTICE OF REDUCTION OF PASS-

IN the year 1857 the Directors made a considerable reduction in the Ucmpany's rates of Passage Money, which continued in ferce till 1881. In that your owing to the oxtraordinary rise in the Cost and Freight of Coals, and the enhanced price of all descriptions of Naval Stores, the Directors were reflectantly compelled to return to the rates of Pessage Money previously in force. They are now happy to state that a decrease in the price of Coal and other expenses of Steam Navigation enables them to reduce the Company's Passage rates to the undernoted scale, which will
